Forecast For Wales
Issued by Met Office Exeter
at 0400 on Wednesday 29 Dec 2021

++ Valid for broadcast between 0600 and 1800

Headline:
A wet start, but turning drier and brighter this afternoon.

Today:
A wet start today with the rain heavy and persistent at times. The rain gradually clearing by lunchtime allowing for some spells of sunshine. Winds will be strong but it will also be very mild for the time of year. Maximum temperature 15 deg C (59 deg F).

Tonight:
This evening will start dry with some clear spells, but further rain will move in from the southwest, giving a wet night for most. Remaining breezy but mild. Minimum temperature 9 deg C (48 deg F).

Thursday:
Thursday will be a cloudy and damp day with the rain heaviest and most persistent in the north and west. Remaining breezy but also mild. Maximum temperature 14 deg C (57 deg F).

Outlook for Friday to Sunday:
Largely dry and very mild on New Year's Eve. Spells of rain then return on New Year's Day and Sunday, with winds increasing, although remaining mild for early January.
